

SYED ADEEB

FULL STACK DEVELOPER | NODE.JS & MONGODB | UX/UI DESIGN

+91 8630766188 | me@syedadeeb.in | [Linked In](#) | <https://syedadeeb.in>

SUMMARY

Full Stack Developer with 4 years of experience, specialising in NodeJS and MongoDB. Built PadSeva, a platform that connects donors with NGOs for menstrual hygiene support. Skilled in creating accessible, user-friendly web applications with tools like Figma. Developed Attar Malaki, a personal E-Commerce project showcasing secure checkout, inventory management, and responsive UI. Experienced in automating email workflows using Gmail APIs, enhancing communication efficiency and system alerts.

EXPERIENCE

01/2026 - ongoing

Remote

Full Stack Developer Internship

1. Azad Torus and Travels

<https://azadtours.in>

- Platform Development: Designing and developing a unified transport and operations management system aimed at streamlining logistics for production crews, touring teams, and event operations. Focused on reliability, real-time coordination, and efficient handling of complex schedules.
- System Architecture: Building a scalable full-stack architecture using Next.js (App Router) and TypeScript, structured for long-term maintainability, modular growth, and production stability.

09/2024 - 12/2025

Remote

Full Stack Developer

2. Padseva

<https://padseva.vercel.app/>

- Designed and developed the official PadSeva website, supporting NGOs focused on menstrual hygiene initiatives for underprivileged communities.
- Launched a clean, user-friendly interface that increased user engagement by 30%, improving accessibility for volunteers and NGO partners.
- Built and implemented a scalable back-end using Node.js and MongoDB, tracking daily activity updates and enabling real-time coordination among NGOs.
- Secured sensitive user data with robust authentication and encryption protocols, maintaining 100% compliance with data privacy standards.
- Protected platform integrity by reducing potential security breaches by 75% through backend validation and data protection best practices.
- Presented backend architecture and UI workflows to stakeholders for feedback and iteration during development cycles.
- Updated key platform features regularly based on volunteer and NGO input, enhancing user experience and platform performance.
- Screened new feature suggestions and feedback to prioritize updates that aligned with user needs and technical feasibility.

Aligarh, India

Web Development and Freelancer

01/2020 - 01/2022

Aligarh, India

Web Designer Trainee

PROJECTS

Azad Tours and Travels

01/2026 - ongoing

<https://azadtours.in>

Reliable, fully-equipped crew transport vehicles designed for production crews, events, and touring teams built to handle long schedules, tight turnarounds, and on-site demands.

Attar Malaki

03/2025 - 12/2025

<https://attar-malaki.vercel.app/>

Attar Malaki is a distinguished purveyor of luxurious Arabian perfumes, harmoniously blending the rich traditions of Middle Eastern fragrance artistry with contemporary sophistication. Our mission is to offer scents that not only captivate the senses but also embody the essence of royalty and elegance.

PadSeva

09/2024 - 12/2025

<https://padseva.vercel.app/>

PadSeva is a social impact initiative dedicated to reducing period poverty and promoting menstrual hygiene in rural southern India. It provides affordable, eco-friendly sanitary pads while raising awareness through education and community outreach. By reaching thousands of women and girls, PadSeva works toward making menstrual health accessible, dignified, and sustainable for all.

Adeflix

01/2022 - 03/2022

<https://adeflix-olive.vercel.app/>

Adeflix is a redesigned version of Netflix, created to explore and understand the concepts of APIs. It leverages TMDB (The Movie Database) API to fetch the latest movies, offering a dynamic and interactive movie browsing experience.
